² Front cover on this MS is actually the entire MS (except back cover and spine shots...) to be digitized, including the NT leaves.

³ Because this MS is a palimpsest, the UV images constitute the text and the non-UV images are additional matter.

Back board still largely intact; front board only has about $\frac{1}{4}$ vertical slice of its former self.

The NLG description notes that some leaves are palimpsests, but does not indicate their contents.

F. 36 has majuscule text at bottom, probably upside down. Letters: ταλελεμην? Perhaps Acts 25.14? Text has rubricated notations; red is still very visible.

Ff. 217, 242–54 are palimpsested from a U-lect of the Gospels, prob. IX. 2 columns, rubrication still visible (and εκ του Ματθ. & εκ του Ιω are also visible).

Ff. 340b–344a: lengthy quotation of scripture in the upper-text (regular *mnaiion* text).

F. 350 is clearly a different hand than what was seen on the previous palimpsested leaves. This is GA 094.
