

Triados	4 (2)	1773	11th	euagg., parch.	26 x 16, 247 l., 2 col., 27 st.
----------------	--------------	-------------	-------------	-----------------------	--

The data above are incorrect in some respects but have been derived from the Triados catalog.

The first four leaves appear to be Coptic. And they may be the upper text of a palimpsest that is uncial beneath.

we measured 26x20, 2 col., 27 stichoi. 247 leaves—crossed out and 261 put on last leaf. Page numbering is correct (i.e., the 261 number). Including the cover, there are 264 leaves (the last one being a 1/4 leaf).

shot 261 (leaf 260a) may be a palimpsest.
