Lect 779: large paper MS, beautiful hand with nice ornamentation. Unnumbered leaves. 288 with back cover. add 1 more for front cover.

31x23.5, 20 stichoi, 2 columns.

file 3a has beautiful ornamentation to begin the MS.

¹ We're not sure where they got their information. It is doubtful that they saw very many of the MSS here, and they would hardly have spent much time on a late lectionary written on paper. I don't see any specific date in the catalog (only the century, which Muenster seems to think is off by two!), so this is a real puzzle.
