  Foliation corrections: foliated.
    256 = [–]; leaf sliver with letters
    257 = [256]
    302+ = [–]; after 301 [300] there are several leaf fragments with text. The precise count is below.
    302–320: the last 'leaf' is actually several tiny, loose fragments of text from this section of the MS. They have *not* been sorted by any specific arrangement.

[1] Bottom is larger than top, but MS is severely twisted.
