Leaves: paginated: 37 is missed: ‘38’ is really 37; ‘109’ bis which ultimately corrects the pagination; after 150 comes ‘156’ (five leaves skipped: ‘156’ is certainly incorrect because it’s a recto page, which should always be odd-numbered); ‘164’ bis (now 160); after ‘184’ is a glued-in sheet of paper which needs to be counted as the next leaf (thus, the page after ‘184’ is actually 183).

Text leaves: 99 (though paginated through ‘200’)

Text images: 198

Cover material: 16 images

front cover: cover + 2 leaves + spine + color chart

subtotal: 10 images

back cover: cover + 1 blank leaf + 1 lined paper insert leaf (writing on one side)

subtotal: 6 images

¹ This may be too late to count as a legitimate MS. And since it’s a lectionary, it’s harder to determine whether it was copied from a printed book or from another MS.
