¹ The numbers reflected are the written numbers not the actual number of the leaf.

² The first leaf of the MS is not numbered

Text: 319 leaves (638)

Notable features³:

0: Is not numbered. It is the first leaf of the manuscript (+1).

176: is numbered 176

212: Is numbered 213 (-1)

224: There is an additional leaf added in front of this page, the edges are worn, so no number could be determined. The text would need to be evaluated in order to see where it fits within the MS.

242: There are two leaves labeled 242 (242; 242b) (+1).

253: There is a preceding leaf, which is not numbered. There is also a 253b following the numbered leaf 253. It should be 255 (+3).

311: After 311 comes 322.

323: An unnumbered leaf follows 322.

325: Before 325 there is 1 sheet of handwritten paper inserted into the last leaf.

13 March 2013: rdm and rpc

³ The initial number is the written number not the actual number of the leaf.
