Leaves: 227 (foliated in pencil; large center penciled number ends up being five less than the outside, smaller penciled number. The smaller hand is accurate throughout. However, it seems that the smaller hand was done later since 214 is called 219 in this hand but 80 in the larger hand: this suggests that the MS was rebound later with **leaf 80 out of order**).

**Leaves: 227; images of text: 454 + 10 cover images = 464.**

<sup>1</sup> The leaf count in the *K-Liste* seems to be following the original penciled foliation, which ends up being off by five.
