¹ aus Μεγ. παρασκ.

² K-Liste says “from the Great Friday.” The first leaf has Matt 27.53–54, then John 19.31–34 (without an incipit to indicate change). Several omissions in the text. Second leaf (only part of first column is visible) has Matt 27.6–9.

³ The date is almost surely no later than X since the letters are supralinear.

⁴ That this had only 19 lines originally is evident on the first leaf: only one line is missing at the top of the second column, which continues the text from John 19.31.

⁵ The lone leaf is glued to the backboard of the codex, with leather flaps from the cover folding in on it. It is not possible to tell whether this leaf extended to the edges of the cover. In addition, 2/3 of a bifolio has been used for this end leaf. Consequently, the width is only measured to the point where the bifolio is creased and holed.

⁶ NLG codex 2460, a paper MS, has dimensions of 21.5 W x 29.5 cm H.

Foliation corrections: skips 229, so 230 = [229]

Specific Details:

Codex has boards covered with embossed leather with medallions or κεφαλόκαρφα (3 on front, 1 on back) and male clasps still present. Quires for the paper codex are clearly marked on the recto of the first leaf of each quire.

Majuscule script. Bifolio is glued to the back inside cover. Three columns showing, two for each page (with the spine crease after the first two columns).

226a–237b: ευαγγελια εωθινα

238a–242b: An αποστολοευαγγελιον—lectionary of Gospels and epistles.

This kind of MS used to constitute a lectionary, but since Aland's time such MSS are not counted in the Gregory-Aland system.

⁷ Cover “a” is not included here because the back inside cover *is* the text for this MS.
